

Harold Frost

Associate Member, Ontario Professional Foresters Association

Forest Operations Manager, Lands & Forests Consulting, Clinton Office

As **operations manager** for **Lands & Forests Consulting** in the counties of Huron, Perth and Middlesex, Harold is responsible for sustainable tree marking and private woodlot sales, harvest supervision and forest management planning for the Managed Forest Tax Incentive Program. Harold has thirty years experience with the Ministry of Natural Resources and four years experience in the harvesting of veneer, saw logs and softwoods.

Harold has supervised and managed the planting of approximately 75 to 100 million trees over a period of 25 years, including site selection and preparation for tree planting, aerial tending and free to grow assessment. He has a valid Ministry of Natural Resources scaling license.

Harold was responsible for coordinating the spruce budworm program of Hearst, which included 40,000 acres per year as well as preparing maps and project description for the Ministry of Environment.

Ecological Prescribed Burn & Wildfire Suppression

Harold has successfully worked on a variety of forest fires acting as Initial Attack Fire Boss and Sector Boss and on prescribed burns being responsible for suppression.

His fire expertise has ranged throughout Ontario with six years experience as crew leader with the Ministry of Natural Resources.

Education Forest Ranger School (Dorset), Forest Technician Diploma
